MEMORANDUM

SUBJECT: SAAD Waste Oil Data

FROM: George R. Prince
Environmental Scientist
Environmental Response Team
Environmental Response Division

TO: Greg Powell, On-Scene Coordinator
Emergency Response Control Section
Superfund Branch, Waste Division
Region IV

I have enclosed eight massive volumes of QA/QC data from our sampling efforts at the SAAD Waste Oil Site. The most important information is in Volume One of eight, which includes the data summary tables. Also important are the chain of custody records included in Volume VIII, Section VIII.

I am currently reviewing this data to evaluate its impact on potential removal actions at SAAD. Concurrently, our report on the drilling program conducted at SAAD is being produced.

I will call you next week to discuss the SAAD Site.
